

Dear Y12 Biologists,

Well done on a successful year's work. You are all improving.

Use this summer to rest but also consolidate your AS Level Biology content and technique.

In your first A-level Year 13 Biology lesson you will sit an essay question under exam conditions (Paper 3 section B). You will have 38 minutes. Choose one essay title from a choice of two. This will be marked using the AQA marking framework. (The one you re-wrote in your own words)

We expect you to complete the following too:

- Completed up-to-date re-written specification for all Y12 content.
- Maths and data analysis questions completed from end-of term.
- Reading book (to be discussed in class)

Mr Bhatti
